Who Are We

Established in 2018 POWERPLUS CONTROL SYSTEMS is a registered Company with Registration Number MBRS1036480 at the Registrar of Businesses and with MRA Tax Identification Number (TPIN) 31528047. We are designers, suppliers and installers of Power Backup systems. We are devoted to Human and Social Development. Our values determine the way we work, the quality of product and services we offer, and the unsurpassed reliable Power Backup Solutions you get as a customer.

PowerPlus Control Systems has continued to strive towards becoming a Best Designer, Supplier and Installer of Solar/Power backup company national wide as well as worldwide, offering our Clients the specialist individual attention and solutions required by an everchanging environment that is impacting Energy sector. PowerPlus Control Systems sees teamwork on every project as a key to successful company. The managing director is dutybound in ensuring efficient and regular communication to all stakeholders and at all levels.

Our Purpose

To be a leading company in Designing, Supplying and Installing Power Backup Systems by providing enhanced products and services. POWERPLUS CONTROL SYSTEMS intends to set new standards in services! With the nature of Energy crisis in our both Residential and Corporate environment as we all know that the above mentioned environments relay on Hydro Power Energy which is sourced from water flow. And due to seasonal fluctuations it has been inconvenient resulting into high cost of production and living due to alternative source of Power by fuel generator, that's a call for POWERPLUS CONTROL SYSTEMS (PPCS) as a solution. Hall

Our Vision

 We strive to be a premier supplier and installer of highest quality products and services that exceeds the expectations of our esteemed customers.

Our Mission

We exist to:

- Broaden the scope of available renewable energy technology in line with the latest improvements in concept and design.
- Only reliable Experts in Solar PV and UPS systems Supplier in Malawi and across.

Our Values

Integrity & Ethics.

PowerPlus Control Systems Believes that integrity is the key to any Successful Business. It is important to us that Our Clients and Team Members have strong Foundation of trust in each other.

We believe in ethics, honesty and respect are 3 pillars of Successful business.

Quality and Commitment.

We are committed to do what we say, and our products perform as promised.

Innovation.

We keep abreast with the new modalities in carrying our business, as we know that progress depends on continuously improving all aspects of our business, and we actively advance those improvements up to "NO DOWNTIME".

Independence.

We encourage independence in thought and action.

Our Services

We have mastered the craft, and we make sure we employ on the best Technicians to ensure effective and efficient systems. Our Services are;

- Ø UPS & Inverter preventive maintenance & repairing
- Ø Solar water pump system installation
- ^Ø ICT power management system installation
- Ø Supply installation of biometric time attendance systems
- Ø We also do Preventive Maintenance on Contract for UPSs
 - and Solar Systems in various machines e.g ATMs, Branches etc. for
 - ranches etc. 101
 - 1. FDH periodic Maintenance
- 3. National Bank of Malawi
- 2. MEC for UPS Data Center Power Management. 4. My Bucks Bank

Our Products

We deal only in reliable and durable brands. We only select quality which ensures a smooth running of systems once put in place. Our products are;

- Solar water pumps
- Ø Solar panels
- Ø UPSs
- Ø Off-On & Hybrid Hrid Inverters
- Ø Solar Batteries

Our Brands

We are multi-brands company. PowerPlus Control Systems ensures that customers are getting best products and services for their choices. We promote reliable brands like APCSchneider Electrics, Fronius, SMA, Solis, Victron, Growatt, Sorotec, Gamatronics, Mecer, Meizzner and other original and durable brands for Uninterrupted Power Supply UPSs andOn-grid and Off-grid Inverters.

Where we work

Our Head Office is in Blantyre, Soche East Behind Puma Filling Station. We have a branching office in the Capital city, However, POWERPLUS CONTROL SYSTEMS works everywhere. We are fully dedicated to ensure that all Malawians should realise the importance of use of Power Backup Systems.

We are accessible every time when our valid customers need our attention and support. We continue promoting Original and reliable products, use of renewable sources of power (e.g. Solar Systems) while minimizing damage to the environment and to people's lives and all livelihoods.

Our Clients

We work with some of the biggest Brands in the nation. We proud ourselves in seamless service delivery and quality products supply hence the trust from these giants. We believe it would serve you better to join these forward thinkers and movers in the industry by patnering with us whenever Solar Power systems and general renewable energy is in the picture.

Solar Financing

We believe in ease for our customers when they are accessing our products. We have therefore patnered with Standard Bank to make this a reality. We provide the products and the services that come with the acquisition an the bank provides the financing. You pay for the system to the bank at an agreed rate for a specified duration. It is a platform that allows you to get your oreffered solar power system and the services that come with it and be able to pay in instalments.

How it works.

Contact us

Call or visit our offices to explain what you need to power. We will visit you if necessary to ascertain the need and also gauge what your home or office needs.

Finance application

You take the quote provide to the bank. The Bank will process your application and gives us the greenlight to do the installation for you.

Quoting

From our needs assessment we will provide a quote. This is what you will take to the Bank and be able to apply for financing.

Installation

We have espoused the best brands available. We will choose the best combination for your needs. We will install the system and make sure it is running properly.

Why choose Financing

- 1. It is affordable, it does fit in your monthly budget.
- 2. It is easily accessible, anyone can be able to get it.
- 3. It is a faster way fo getting the Solar power system.
- 4. The Solar system acts as a collateral for the loan given.
- 5. It will increase your productivity and general bliss.

Who can Access it?

While this is available to anyone with small or big projects, proven track record is a neccessity an affliation to Standard Bank is a must. Anyone within the Malawi Borders can acess this financing opportunity whether running a business or just wanting the system for home use.

Our Approach

We belive that no two projects are the same and we treat them with that uniqueness in mind. We therefore everytime assess your specific needs to avoid hasty generalizations that leave you unsatisfied. Therefore, we will employ a needs assessment first before even recommending a service or product to ensure that you are getting your investments worth.

Why us

1. Small enough to care, large enough to deliver excellence

We are a Top 5 Solar power systems firm led by an experienced Director and supported by a team of skilled and qualified team members. This means we are large enough to offer significant experience, technical and industry specialisms, yet small enough to retain an approachable, trusted client relationship, so that you get the best of both. So, whether you have a burning question or uncertainty now or in the future, you will have the confidence of a team behind you, able to provide their guidance and support.

2. Trusted advice, imaginative solutions

We are more than just Technicians. We treat every situation as unique and will build a team around you to deliver imaginative, top notch advice that you can trust - whether that is through service, product or just pure advisory. What sets us apart is that we are not afraid to question the 'norm', and to ask you 'what if', in order to find innovative ways to lift your business performance and/or personal wealth.

3. Adding value, not complication

We aim to ensure clear, transparent pricing and provide a letter of engagement prior to beginning our work to clearly make you aware of the fees for each service. You can also add further services or advisory projects at any time and these will always be discussed and agreed with you in advance of the work being carried out. Ultimately, we believe in offering a high quality service, at a great value for your investment. We have worked hard and risen to the level where we are confident that we can deliver any project of any maginitude without compromise on quality and general standards.

4. An accessible team

We are located just in the city and just so near to you. Our internal communications are so seamless that it is so easy to communicate with an expert for help on quote, maintenance, advisory or general service delivery. We value time in our dealings with you and we treat you as a priority, always.

Experience

We have worked with and for some of the biggest names in the nation on both small and big projects. This shows not only how much our name is trusted but also how capable we are to handle to perfection whatever project that does come our way.
